VALVES & STEAM

Process Valves & Actuators

Valve and actuator packages selected together for on/off or modulating service. Match valve torque, mounting, air or electrical supply, control signal and required fail position. Include position feedback, switchbox and pilot-solenoid requirements so the complete assembly can be quoted.

Unit for enquiry: each | Product range

Product-family reference photograph. Exact construction, materials and operating limits are confirmed for the item quoted.

PRODUCT DETAILS

Valve	Size, material and connection standard
Actuator	Pneumatic / electric / manual
Operation	On-off or modulating; required fail position

TYPES / CONFIGURATIONS

Butterfly valve assembly | Ball valve assembly | Control valve assembly | Actuator only | Help identify an existing assembly | Low-temperature & CO2 valve enquiries enquiry

This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Process Valves & Actuators

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Nominal valve size	DN 10, DN 15, DN 20, DN 25, DN 32, DN 40, DN 50, DN 65, DN 80, DN 100, DN 125, DN 150, DN 200, DN 250, DN 300
Connection	BSP threaded, NPT threaded, Flanged, Butt weld, Socket weld, Hygienic connection
Required pressure class / rating	e.g. PN16; confirm the complete duty
Medium, pressure & temperature	e.g. water; pressure and temperature

INCLUDE WITH YOUR ENQUIRY

Valve and actuator nameplates, size, connections, medium, pressure, temperature, operating torque if known, supply, control signal, feedback, fail position, quantity and required date.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____

Low-temperature & CO2 valve enquiries

Send the exact valve reference, medium, phase, minimum/maximum temperature, pressure and connection standard. Extended-stem construction alone does not establish cryogenic suitability; documentation must apply to the exact quoted valve.

Prepared by Beccentric (Pvt) Ltd. Compiled 13 November 2026. Contact Beccentric to confirm the exact configuration and supporting documentation.
