VALVES & STEAM

Process Control Valves

Valve and actuator enquiries for regulating a process variable. Share the operating range and control requirements so the complete assembly can be considered.

Unit for enquiry: each | Product range

Product-family reference photograph. Exact construction, materials and operating limits are confirmed for the item quoted.

PRODUCT DETAILS

Sizing inputs	Minimum, normal and maximum flow; inlet/outlet pressure
Control	Signal, positioner, feedback and required fail action
Assembly	Valve, actuator and accessories to be specified together

TYPES / CONFIGURATIONS

Globe control assembly | Pneumatic control valve | Electric control valve | Positioner / accessory

This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Process Control Valves

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Nominal valve size	DN 10, DN 15, DN 20, DN 25, DN 32, DN 40, DN 50, DN 65, DN 80, DN 100, DN 125, DN 150, DN 200, DN 250, DN 300
Connection	BSP threaded, NPT threaded, Flanged, Butt weld, Socket weld, Hygienic connection
Required pressure class / rating	e.g. PN16; confirm the complete duty
Medium, pressure & temperature	e.g. water; pressure and temperature

INCLUDE WITH YOUR ENQUIRY

Fluid properties, operating flow range, inlet/outlet pressure, temperature, line size, supply, control signal and fail position.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
