VALVES & STEAM

Diaphragm Valves

Valves that use a flexible diaphragm to close the flow path. Body lining and diaphragm material are selected around the chemical, temperature and solids in the process.

Unit for enquiry: each | Product range

Product range example; confirm the make and configuration quoted.

PRODUCT DETAILS

Design	Weir / straight-through requirement
Compatibility	Specify body lining and diaphragm compound
Connections	Flanged, threaded or process-specific connection
Reference example	Saunders glass-lined diaphragm valve family

TYPES / CONFIGURATIONS

Manual diaphragm valve | Actuated diaphragm valve | Replacement diaphragm

This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Diaphragm Valves

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Nominal valve size	DN 10, DN 15, DN 20, DN 25, DN 32, DN 40, DN 50, DN 65, DN 80, DN 100, DN 125, DN 150, DN 200, DN 250, DN 300
Connection	BSP threaded, NPT threaded, Flanged, Butt weld, Socket weld, Hygienic connection
Required pressure class / rating	e.g. PN16; confirm the complete duty
Medium, pressure & temperature	e.g. water; pressure and temperature

INCLUDE WITH YOUR ENQUIRY

Fluid and concentration, solids, temperature, pressure, DN and connection. For a spare diaphragm, include manufacturer, valve model and diaphragm marking.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
