INDUSTRIAL & PROCESS VALVES

Duplex Stainless Steel Ball Valves

Duplex stainless ball valves for processes requiring a specified material beyond the usual austenitic stainless range. The researched 2205 family uses a two-piece, full-bore arrangement. Specify the exact cast grade, trim and seat; duplex construction alone does not establish resistance to every chemical or service condition.

Unit for enquiry: each | Product range

Product-family reference photograph. The exact model, size, material and configuration are confirmed with your quotation.

PRODUCT DETAILS

Reference construction	Two-piece, full-bore ball valve
Material request	2205 duplex; confirm exact body and trim grades
Seat	Confirm compound and pressure-temperature limits
Operation	Bare stem, manual or matched actuation

TYPES / CONFIGURATIONS

2205 duplex ball valve enquiry | Exact specified duplex grade | Replacement to existing reference | Help me identify

Options describe your enquiry, not stock or a universal operating rating. Materials, connections, performance and supporting documents are confirmed for the exact item quoted. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Duplex Stainless Steel Ball Valves

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Nominal size / measured connection dimensions	DN / NPS / tube OD, and any measured dimensions
Connection / end standard	BSP threaded, NPT threaded, Flanged - specify standard and class, Weld end - specify dimensions, Hygienic clamp - specify standard
Body, trim and sealing materials	Exact grade, seat, seals or existing specification
Fluid and chemical concentration	Full process composition and exposure
Operation required	Manual lever, Manual gearbox, Pneumatic spring return, Pneumatic double acting, Electric on/off, Modulating - specify signal
Medium, pressure and temperature	Fluid and concentration; min / normal / maximum pressure and temperature
Existing reference / documents required	Model, nameplate, drawings, certificates and required date

INCLUDE WITH YOUR ENQUIRY

Send measured connections, the complete existing reference or photographs, operating conditions, quantity and required date. Include any drawings or certification required.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
