MOTORS & DRIVES

Electric Motors & Gearboxes

A replacement-matching route when you have an existing motor, gearbox or complete geared drive. Send the nameplate and installation details so the electrical, mechanical and operating requirements can be checked.

Unit for enquiry: each | Product range

Motor-family photograph. For a gearbox or complete drive, specify the required assembly and send both nameplates.

PRODUCT DETAILS

Motor	kW, supply, rated current, rpm and frame
Gearbox	Ratio, output speed, torque and service duty
Mounting	Foot, flange, hollow shaft or solid shaft
Accessories	Brake, encoder, fan and protection requirements

TYPES / CONFIGURATIONS

Electric motor | Helical geared motor | Parallel-shaft geared motor | Bevel geared motor | Worm geared motor | Gearbox only | Servo motors & feedback enquiry

Browse the dedicated motor and gearbox ranges for more specific choices, or use this page to identify an existing assembly. Availability and lead time are confirmed on quotation. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Electric Motors & Gearboxes

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Required assembly	Electric motor, Geared motor, Gearbox only
Manufacturer / complete reference	Include every prefix, suffix and marking
Motor power (kW)	Rated motor output
Supply voltage / frequency	Phase, voltage and Hz
Motor and output speed (rpm)	Both speeds if available
Gear ratio / torque	Nameplate ratio and output torque
Mounting / orientation	Foot/flange, installation position and shaft arrangement
Shaft, flange and keyway dimensions (mm)	Measured mechanical interfaces
Brake / encoder / cooling	Options on the original motor
Application and operating conditions	Product, duty, temperature and environment

INCLUDE WITH YOUR ENQUIRY

Motor and gearbox nameplates, full type and serial references, kW, supply, speed, ratio, torque, mounting position, shaft/flange dimensions, brake and encoder details.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____

Servo motors & feedback

Send the complete motor and drive references, feedback type, connector, power, speed, brake details and shaft/flange dimensions. A matching power rating does not establish drive or feedback compatibility.
