## TYPES / CONFIGURATIONS

MS4-DL | MS6-DL | Match existing configuration

The quoted numerical values apply only to 529531. A basic soft-start valve is not automatically a safety-rated exhaust valve or lockout device. Confirm the machine circuit and required safety functions separately. Options describe an enquiry; not every combination is available. Confirm the complete selected reference and operating limits before ordering. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.
