STAINLESS STEEL & FITTINGS

Hygienic Blank Nuts with Retaining Chain

Removable blanking closures with retaining chains for compatible hygienic union connections. Match the union thread, sealing face and gasket to the existing fitting. A retaining chain keeps the loose closure associated with its connection; it does not establish a pressure rating.

Unit for enquiry: each | Product range

Product range example; confirm the make and configuration quoted.

PRODUCT DETAILS

Assembly	Blank nut and retaining chain
Compatibility	Union thread and sealing profile
Seal	Specify material and process compatibility
Selection	Match existing connection dimensions

TYPES / CONFIGURATIONS

Blank nut with chain | Replacement blanking closure | Gasket to exact closure

Options describe the requirement to quote. Exact dimensions, grade, compatibility, availability and any material or food-contact documents are confirmed for the selected item. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Hygienic Blank Nuts with Retaining Chain
