HYGIENIC PROCESS COMPONENTS

# Hygienic Process Sampling Valves

Sampling valves for collecting product from compatible process lines and vessels. Specify the connection, sample medium and cleaning procedure together. The required sampling method, membrane or seal and operating conditions must match the selected model; hygienic construction alone does not establish aseptic performance.

Unit for enquiry: each | Product range

Product-family reference image. Exact configuration, dimensions and materials are confirmed with your quotation.

## PRODUCT DETAILS

| | |
|---|---|
| **Purpose** | Controlled product sampling from suitable lines or vessels |
| **Selection** | Valve reference, sample medium and cleaning procedure |
| **Connections** | Process connection and sample outlet dimensions |
| **Verification** | Seal compatibility and any aseptic or food-contact requirement |

## TYPES / CONFIGURATIONS

Complete sampling valve | Replacement valve to reference | Sampling membrane / seal enquiry

These selections describe an enquiry. Compatibility, dimensions, material, seals and operating limits are confirmed for the exact item quoted. Request supporting documentation for your application. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

# Specify your requirement

## Hygienic Process Sampling Valves

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

| | |
|---|---|
| **Connection size / measured dimensions** | Tube OD, wall and connection dimensions in mm |
| **Connection standard / end arrangement** | Hygienic clamp, DIN union, SMS union, RJT union, Weld end, Match existing |
| **Sample outlet / cleaning connections** | Outlet dimensions and cleaning or steam connections |
| **Sampling requirement** | Liquid, viscosity, sample volume and sampling procedure |
| **Process and cleaning conditions** | Product, operating pressure/temperature, cleaning method and chemicals |
| **Existing part or equipment reference** | Complete model, markings, drawing or photographs |
| **Documentation required** | Drawing, material traceability, seal or food-contact documentation |

## INCLUDE WITH YOUR ENQUIRY

Complete reference or photographs, connection standard, measured dimensions, operating and cleaning conditions, quantity and required date.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
