MOTORS, GEARBOXES & DRIVE COMPONENTS

Industrial Servo Motors

Servo-motor enquiries for packaging, filling, indexing and positioning axes, matched to the existing controller, feedback and mechanical load.

Unit for enquiry: each | Product range

Product-family photograph. Exact model, dimensions and configuration are confirmed with your quotation.

PRODUCT DETAILS

Performance	Continuous / peak torque, rated / maximum speed and load inertia
Control	Servo-drive compatibility and feedback protocol
Connections	Power, feedback, brake connectors and pinouts
Mechanical	Flange, shaft, key and brake arrangement

TYPES / CONFIGURATIONS

Packaging / indexing axis | Replacement servo motor | Holding-brake option | Application selection assistance

A servo is not a drop-in induction-motor replacement. Confirm controller, encoder protocol, cables and pinouts together. A holding brake is not automatically a dynamic service brake. Choices record your requested specification; not every combination is available. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Industrial Servo Motors

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Continuous / peak torque and speed	Nm and rpm; include cycle and acceleration requirements
Servo-drive and motor references	Full drive and existing motor codes
Feedback requirement	Resolver, Absolute encoder, Incremental encoder, Match existing drive
Electrical ratings and connections	Drive supply / motor ratings, connector types, pinouts and cable codes
Frame, shaft and flange dimensions (mm)	Frame / standard, shaft diameter x length, keyway, foot centres and flange drawing
Brake and load inertia	Holding brake voltage / torque, load inertia and duty
Application and environment	Driven equipment, hours / starts, ambient temperature, dust and cleaning conditions
Existing model / complete reference	Full reference and suffixes; include a clear nameplate photograph

INCLUDE WITH YOUR ENQUIRY

Send the complete reference and nameplate photo, installation dimensions, operating duty, quantity, delivery location and required date. State whether an alternative may be proposed for approval.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
