INSTRUMENT AIR DISTRIBUTION

Instrument Air Header Manifolds

Stainless distribution headers supply multiple instrument-air take-offs from one inlet. Specify the inlet, outlet count and sizes, isolation valves, drain and mounting arrangement as one assembly. These headers are different from the two-, three- or five-valve manifolds fitted to pressure instruments.

Unit for enquiry: each | Product range

Product-family reference photograph. The exact model, size, material and configuration are confirmed with your quotation.

PRODUCT DETAILS

Purpose	Instrument-air distribution
Material request	304 or 316 stainless steel
Outlet count	Specify each take-off and required valve
Assembly	Inlet, drain, mounting and test requirements

TYPES / CONFIGURATIONS

Header body | Header with outlet isolation valves | Replacement assembly | Help me identify

Options describe your enquiry, not stock or a universal operating rating. Materials, connections, performance and supporting documents are confirmed for the exact item quoted. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Instrument Air Header Manifolds

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Nominal size / measured connection dimensions	DN / NPS / tube OD, and any measured dimensions
Outlet count and sizes	Number of outlets; each thread size and isolation valve
Inlet, drain and mounting	Thread / flange standard, drain and bracket dimensions
Body, trim and sealing materials	Exact grade, seat, seals or existing specification
Medium, pressure and temperature	Fluid and concentration; min / normal / maximum pressure and temperature
Existing reference / documents required	Model, nameplate, drawings, certificates and required date

INCLUDE WITH YOUR ENQUIRY

Send measured connections, the complete existing reference or photographs, operating conditions, quantity and required date. Include any drawings or certification required.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
