MOTORS, GEARBOXES & DRIVE COMPONENTS

Industrial Planetary Gearboxes

Modular planetary reduction drives for applications requiring high output torque in a compact arrangement. Select the complete drive against the working torque, speed, load cycle and mounting details.

Unit for enquiry: each | Product range

Product-family photograph. Exact model, dimensions and configuration are confirmed with your quotation.

PRODUCT DETAILS

Gear arrangement	Planetary reduction
Input	Electric or hydraulic drive interface, depending on configuration
Output	Application-specific shaft/flange arrangements
Sizing	Rated and peak torque, duty and thermal conditions must be checked

TYPES / CONFIGURATIONS

Electric motor | Hydraulic motor | Mechanical input shaft | Selection assistance

Stall/peak torque is not a permissible continuous operating torque. Check radial/axial shaft loads, lubrication, cooling and mounting orientation separately. Choices record your requested specification; not every combination is available. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Industrial Planetary Gearboxes

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Required assembly	Gearbox only, Complete geared motor, Replacement matching existing unit
Ratio / required output speed	Nameplate ratio or required output rpm
Input speed and motor power	Motor kW and rated input rpm
Output torque and load duty	Continuous / peak Nm if known; load, hours and starts
Output shaft / bore dimensions	Diameter, length, keyway / spline and flange pattern (mm)
Mounting and operating position	Foot / flange / torque arm, orientation and shaft side
Application and environment	Driven equipment, hours / starts, ambient temperature, dust and cleaning conditions
Existing model / complete reference	Full reference and suffixes; include a clear nameplate photograph
Input drive	Electric motor, Hydraulic motor, Mechanical input shaft, Selection assistance
Duty information	Continuous running, Intermittent operation, High starting load, Match existing unit

INCLUDE WITH YOUR ENQUIRY

Send the complete reference and nameplate photo, installation dimensions, operating duty, quantity, delivery location and required date. State whether an alternative may be proposed for approval.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
