PNEUMATICS

Pneumatic Cylinders, Valves & Fittings

Replacement sourcing for pneumatic cylinders, directional valves, tubing, fittings and air-line accessories. Start with the complete part reference and circuit requirements, or send photographs and measured dimensions for identification support.

Unit for enquiry: each | Product range

Round pneumatic cylinder reference photograph. Other components and configurations are identified from your enquiry.

PRODUCT DETAILS

Cylinder	Bore, stroke, mounting and action
Valve	Function, ports and coil voltage
Tubing	Outside diameter and material

TYPES / CONFIGURATIONS

Cylinder | Pneumatic valve | Tubing / fitting | Air-line accessory | Automatic condensate drains enquiry | Vacuum suction cups & handling parts enquiry

Specify your requirement

Pneumatic Cylinders, Valves & Fittings

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Cylinder bore / fitting size	Enter your dimensions / reference, or ask for help identifying the item.
Complete part reference	Manufacturer and model
Ports / mounting / coil	Connection size and any electrical details

INCLUDE WITH YOUR ENQUIRY

Part reference, operating pressure, connection sizes, mounting and dimensions. Include photographs of markings.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____

Pneumatic Cylinders, Valves & Fittings

Automatic condensate drains

Include the drain reference, supply voltage, operating pressure, air-system application and inlet/outlet thread standard. Identify whether the existing drain uses a timer or level sensing.

Vacuum suction cups & handling parts

Specify lip diameter, number of bellows, material, mounting thread and the surface being handled. Include load, temperature and required vacuum-system compatibility.
