INDUSTRIAL & PROCESS VALVES

Pressure-Reducing Valves & Regulators

Pressure-reducing regulators maintain a selected downstream pressure under suitable operating conditions. Sizing needs the inlet-pressure range, target outlet pressure and flow, not just pipe diameter. Confirm body, seat and diaphragm compatibility. A regulator does not replace required downstream overpressure protection.

Unit for enquiry: each | Product range

Product-family reference photograph. The exact model, size, material and configuration are confirmed with your quotation.

PRODUCT DETAILS

Function	Downstream pressure regulation
Sizing	Inlet / outlet pressures and min / normal / max flow
Selection	Spring range, body, trim and diaphragm
Connections	Threaded or flanged to exact model

TYPES / CONFIGURATIONS

Self-operated pressure regulator | Exact replacement regulator | Pressure-control assembly enquiry | Help me identify

Options describe your enquiry, not stock or a universal operating rating. Materials, connections, performance and supporting documents are confirmed for the exact item quoted. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Pressure-Reducing Valves & Regulators

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Nominal size / measured connection dimensions	DN / NPS / tube OD, and any measured dimensions
Connection / end standard	BSP threaded, NPT threaded, Flanged - specify standard and class, Weld end - specify dimensions, Hygienic clamp - specify standard
Inlet and required outlet pressure	Min / normal / max inlet; target outlet pressure
Required flow range	Minimum, normal and maximum flow with units
Body, trim and sealing materials	Exact grade, seat, seals or existing specification
Medium, pressure and temperature	Fluid and concentration; min / normal / maximum pressure and temperature
Existing reference / documents required	Model, nameplate, drawings, certificates and required date

INCLUDE WITH YOUR ENQUIRY

Send measured connections, the complete existing reference or photographs, operating conditions, quantity and required date. Include any drawings or certification required.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
