VALVES & STEAM

Safety & Pressure Relief Valves

Enquiries for overpressure-protection valves and exact replacement assemblies. Selection requires the specified set pressure, relieving capacity and equipment duty.

Unit for enquiry: each | Product range

Product-family reference photograph. Exact construction, materials and operating limits are confirmed for the item quoted.

PRODUCT DETAILS

Required data	Set pressure, relieving flow and medium
Operating duty	Temperature, back pressure and protected equipment
Documentation	Applicable design requirements and certification requested

TYPES / CONFIGURATIONS

Exact replacement | New duty for technical selection | Replacement assembly

This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Safety & Pressure Relief Valves

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Nominal valve size	DN 10, DN 15, DN 20, DN 25, DN 32, DN 40, DN 50, DN 65, DN 80, DN 100, DN 125, DN 150, DN 200, DN 250, DN 300
Connection	BSP threaded, NPT threaded, Flanged, Butt weld, Socket weld, Hygienic connection
Required pressure class / rating	e.g. PN16; confirm the complete duty
Medium, pressure & temperature	e.g. water; pressure and temperature

INCLUDE WITH YOUR ENQUIRY

Existing nameplate and certificate where available, set pressure, required capacity, inlet/outlet sizes, medium, temperature, back pressure and equipment design details.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
