SMC PNEUMATIC COMPONENTS

SMC AC-D Modular Air Preparation Units

Modular compressed-air preparation assemblies combine selected filtration, pressure regulation and optional lubrication functions. Build the assembly around the required downstream air quality, flow and pressure rather than port size alone.

Unit for enquiry: each | Product range

SMC product-family image. Exact size, connections and configuration are confirmed with your quotation.

PRODUCT DETAILS

Series	AC-D modular air preparation
Selection	Filter, regulator and optional lubricator combination
Sizing	Required flow, inlet/outlet pressure and permissible pressure drop
Air quality	Filter grade, drain and downstream equipment requirements must be specified

TYPES / CONFIGURATIONS

Filter and regulator assembly | Filter / regulator / lubricator assembly | Replacement bowl, element or gauge - full code required

Specify the required modules and full AC-D assembly code. Confirm flow at the permitted pressure drop, drain operation and bowl protection. Add lubrication only where the downstream equipment and process require it. Options describe an enquiry; not every combination is available. Confirm the complete selected reference and operating limits before ordering. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

SMC AC-D Modular Air Preparation Units

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

AC-D service-unit size	AC20-D, AC30-D, AC40-D, AC50-D, AC60-D
Port thread and size	Thread standard and connection size
Inlet and outlet pressure	Normal / maximum inlet pressure and requested outlet setting
Flow and air-quality requirement	Required flow, filtration grade and connected equipment
Drain, bowl, gauge and mounting	Drain type, bowl guard, gauge and mounting arrangement
Application and working environment	Machine model, cleaning / washdown and any product-contact requirements
Complete manufacturer reference / existing markings	Include every suffix if known; otherwise ask for identification help

INCLUDE WITH YOUR ENQUIRY

Send the complete reference, requested size and configuration, operating conditions, quantity, delivery location and required date. Add label / installation photographs and state whether an alternative may be proposed for approval.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
