STAINLESS STEEL & FITTINGS

Stainless Steel BSP Hose Nipples

Threaded stainless-steel hose nipples for compatible industrial hose connections. Match the hose inside diameter and tail profile as well as the BSP thread size. Hose material, retention method and the selected fitting's duty must suit the operating pressure, temperature and medium.

Unit for enquiry: each | Product range

Hose-nipple section drawing showing the barbed tail; final thread and hose dimensions are confirmed in quotation.

PRODUCT DETAILS

Material request	316 stainless steel
Pipe connection	BSP size and thread form to confirmation
Hose connection	Hose bore and tail geometry
Duty	Fitting, hose and retention must be assessed together

TYPES / CONFIGURATIONS

BSP male hose nipple | Replacement hose tail to sample | Complete connection for assessment

Options describe the requirement to quote. Exact dimensions, grade, compatibility, availability and any material or food-contact documents are confirmed for the selected item. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.
