STAINLESS STEEL & FITTINGS

Stainless Steel Hexagonal Bar

Hexagonal stainless bar for machining nuts, plugs, valve components and other engineered parts. Size is measured across flats, not across corners. Select the grade against machining needs and the finished component's service conditions; confirm the required cut length and tolerances.

Unit for enquiry: metre | Product range

Hexagonal bar shown; exact across-flats size, grade and length are confirmed in quotation.

PRODUCT DETAILS

Section	Solid hexagonal; size measured across flats
303 reference range	8-46 mm across flats
316 reference range	13-32 mm across flats
Availability	Exact size, grade and length confirmed on quotation

TYPES / CONFIGURATIONS

303 hexagonal bar | 316 hexagonal bar | Special grade / size to enquiry

Options describe the requirement to quote. Exact dimensions, grade, compatibility, availability and any material or food-contact documents are confirmed for the selected item. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.
