INDUSTRIAL & PROCESS VALVES

Steam Traps & Condensate Drainage

Steam traps discharge condensate and non-condensable gases while limiting live-steam loss. The operating principle must suit the application and load. Include upstream steam pressure, return-line backpressure, start-up and running condensate loads, installation orientation and the existing trap reference.

Unit for enquiry: each | Product range

Product-family reference photograph. The exact model, size, material and configuration are confirmed with your quotation.

PRODUCT DETAILS

Purpose	Condensate removal from steam systems
Selection	Operating principle, load and differential pressure
Application	Mains drainage, tracing or process equipment
Connections	Size, standard, orientation and installation space

TYPES / CONFIGURATIONS

Thermodynamic trap enquiry | Float / float-thermostatic trap enquiry | Inverted-bucket trap enquiry | Thermostatic trap enquiry | Exact replacement | Help me identify

Options describe your enquiry, not stock or a universal operating rating. Materials, connections, performance and supporting documents are confirmed for the exact item quoted. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Steam Traps & Condensate Drainage

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Nominal size / measured connection dimensions	DN / NPS / tube OD, and any measured dimensions
Connection / end standard	BSP threaded, NPT threaded, Flanged - specify standard and class, Weld end - specify dimensions, Hygienic clamp - specify standard
Steam application	Mains drainage, tracing, heat exchanger or other process
Steam pressure and backpressure	Minimum / normal / maximum inlet and return pressures
Condensate load	Running and start-up load, with units
Orientation / installation	Horizontal or vertical, available space and existing arrangement
Existing reference / documents required	Model, nameplate, drawings, certificates and required date

INCLUDE WITH YOUR ENQUIRY

Send measured connections, the complete existing reference or photographs, operating conditions, quantity and required date. Include any drawings or certification required.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
