MOTORS & DRIVES

Variable Frequency Drives (VFDs)

Drive sourcing by exact reference or motor and application requirements. Existing settings and control requirements help identify a suitable offer.

Unit for enquiry: each | Product range

Product-family photograph. Supply, motor current, overload rating and control options are confirmed for the selected drive.

PRODUCT DETAILS

Input	Supply voltage, phases, frequency and protection
Output selection	Motor voltage / current and overload duty; kW alone is insufficient
Control	Required I/O, speed reference, communication and feedback
Installation	Cooling, enclosure, EMC / cable requirements and braking options

TYPES / CONFIGURATIONS

Exact replacement | New application | Alternative for approval

Confirm motor and supply compatibility, required current and overload rating. A drive is not automatically suitable for single-phase input or for every motor of the same kW. This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Variable Frequency Drives (VFDs)

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Requested motor power	0.18 kW, 0.37 kW, 0.55 kW, 0.75 kW, 1.1 kW, 1.5 kW, 2.2 kW, 3 kW, 4 kW, 5.5 kW, 7.5 kW, 11 kW, 15 kW, 18.5 kW, 22 kW, 30 kW, 37 kW, 45 kW, 55 kW, 75 kW
Incoming supply voltage, phase and frequency	State input supply; single-phase input must be supported by the selected drive
Motor nameplate voltage and rated current	Motor volts, amps, frequency, rated rpm and connection
Application / load type	Pump / fan, Conveyor / constant torque, Mixer, Other machine load
Control and communication	I/O, analogue reference, network protocol, encoder and existing PLC interface
Overload, speed range and braking	Overload duty, minimum / maximum rpm, braking resistor / regenerative needs
Installation and enclosure	Panel / field mounting, IP requirement, ambient temperature, altitude and cable length
Existing model / complete reference	Full reference and suffixes; include a clear nameplate photograph

INCLUDE WITH YOUR ENQUIRY

Complete drive reference, motor nameplate, incoming supply and application. Include communication and enclosure requirements.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
